

Figure 1: Net QE by G4 central banks

- For G4 commercial banks, 2023 had seen a modest improvement in net demand of around \$100bn vs. 2022 as significant net sales from US commercial banks were offset by net purchases from other G4 commercial banks, particularly Euro area banks. In 2024 to-date, there has been a notable pickup with around \$430bn of net purchases
